

I have been a supporter & listener of KLOVE for 5 year. I need this station. I ask that you listen to 105.5 for just one hour and listen no only wiht your ears but with your heart and see if you don't need them too. Please do not let the LPFM broadcasters put other programing in it's place. That would be taking away the only lifeline so many people count on. Please do not let this happen.  
thank you
